Work experience

MoMAGIC Bangladesh Ltd.

Oct 2021 — Dec 2021

Product Manager

I was working with the business team on a web media website "Browseit.com.bd". Here I used Google Analytics 4, Google Trends (SEO tool), Google Tag Manager & Excel Sheets to keep track of the website's data and update the daily report. Also generated Push Notifications based on web analytics to improve organic viewership.

JOB RESPONSIBILITIES:

- #Created thumbnails & banners
- #Content management system
- #Research keywords & help content to rank
- #Prepared push notifications
- #Track business using analytics Improve website performance
- #Create daily report

Dynamicflow

Jul 2021 — Sep 2021

Full Stack Developer

JOB RESPONSIBILITIES:

- # I build static html files for Winia Refrigerators.
- # I cleared numerous lines of inline css & rewrote the css with sass
- # I started doing research on web 3 to build this Game Tournament Ticketing Client Site. I came across a cross truffle etc.
- # Worked with Bootstrap, Shopify, WordPress etc
